Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Applicants' catalyst composition is unobvious over the prior art of record because the prior art of record does not teach or suggest a catalyst composition comprised of a redox complex of either a ruthenium, copper, platinum or palladium metal-ligand complex with a cobalt compound wherein the molar ratio of the ligand to either the ruthenium, copper, platinum or palladium metal atom is about 0.2 : 1 to about 0.4 :1.0. All claims (33-36) are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
